Springer Ill, with Symptoms of the Grip -Minority Report on the Bill Placing Binding Twine on the Free List,

WASHINGTON, Feb. 27.-The red man occupred the attention of the House to-day, the entire session being devoted to the Indian Ap-propriation bill. An amendment was adopted in the Committee of the Whole, placing the Indian agencies, in case of vacancies hereafter. under charge of army officers, who shall be under the orders and direction of the Secretary of the Interior. This radical change gave rise to a lively debate. Mr. Pickler of South Dakota and Mr. Wilson of Washington vigorously opposing it.

Mr. Simpson of Kansas said this was a golden epportunity to give the army employment for which their education entirely fitted them. It was an equally opportune occasion for the Democrats to retrench expenditures, and he any, chance hereafter, in view of mistakes vital questions. Here was a chance to lop off fifty-eight Indian agents and save the large sum paid in salary—a splendid, a golden op-portunity for the Democrats to carry out their pladges of economy.

portunity for the Democrats to carry out their pledges of economy.

Mr. Foel (Dem., Ark.), in charge of the bill, gave notice that he would ask for a separate vote on the amendment when the bill came into the House.

A running debate followed, touching the interference of Indian agents in politics, and the House was in confusion, several members taking at once. The Chair rapped vigorously with his gavel, and the House finally quieted down.

down.

Mr. Butler (Dem. Iowa; then asserted that Indian agents not only got leave, but they got orders from the Indian office to engage in political business for the benefit of the Republican party.

Mr. Pickler stoutly denied that this was true, and said there were no efficers more consciontious or more able than the Indian agents.

A verbal wrangle between Messrs. Pickler, Crain, and Simpson created some excitement and sareastic compliments were freely exchanged. Without action on the bill, the committee rose and the House adjourned until Monday.

Mr. O'Neil of Massachusetts introduced in the House to-day a resolution directing the Speaker to appoint a committee of five members of the House to examine and investigate the manner in which moneys are expended on the improvement of rivers and harbors, the system of doing the work, the wisdom, economy, and efficiency of existing methods, and whether abuses exist in carrying on the works, the needs of the service, and whether a better system than the present can be devised for it. The committee is also to investigate the works to be carried on, their total cost, and to report. Speaker to appoint a committee of five members

The sub-committee of the House Committee on the Election of President, Vice-President, on the Election of President, Vice-President, &a. to-day reported favorably, with some amendments, the resolution of Mr. Crane, substituting Dec. 31 for March 4 as the commencement and termination of the official terms of Senators and Representatives in Congress, and providing that the annual meeting of Congress shall be held on the first Monday in January, and also substituting April 30 for March 4 as the date of commencement and limitation of the term of President and Vice-President. The full committee will hold a special meeting on Wednesday next to consider the resolution.

Messrs. Payne, Reed, Burrows, McKenna, Ways and Means Committee, submitted to the House to-day their report in opposition to plusing binting twine on the free list, as proposed by the majority of the committee. The act of ISS3, they say, placed the duty on binding twine at 25 cents per pound, and the duty on the raw material from which it is manufactured was fixed at from three-quarters of a cent per pound to 15 cents. Under the Mills bill these raw materials were made free and the duty on binding twine was reduced to 25 per cent, ad valorem. The McKinley till loft the raw materials from and reduced the duty on the twine to seven-tenths of a cent per pound, which is loss than 10 per cent, ad valorem. The report, after reviewing legislation in connection with binding twine, concludes as follows:

The bill presents a good illustration of the folly of Ways and Means Committee, submitted to the

cludica as follows:

The bill presents a good illustration of the folly of attempting to the first his tariff by piecement. It includes the extendition from duty building twins trons jule. The effect of this would be to admit free of duty be large class of jule yarns, or twine in an advanced state of manufacture, which could be used in all forms of jule bagging, which and its property of the property of the country.

country.

Account this industry is already established; because the reduced of this only would destroy it, throwing thorsands of non-out of compayment and rendering millions of dollars of invested capital urcless, and turning two initions of deliars in wages annually to the laborers of other countries, because there is a fively competition, which can only be maintained by the present dity, which enables manufacturers of American heimphiguing twine to prolong their existence; because the destruction of the innisery would indoubtedly increase destruction of this industry would undoubtedly increase the brick of binding twine, and because we are opposed To free trade and believe in the protection of American industries, we are opposed to the passage of this bill.

The Hon. Jerry Simpson of Kansas, who attended the St. Louis Convention, is enthusiastic over its work and regards the Convention as having been highly successful.

"I have attended many of these independent Conventions," said he. "but this last one seems to have been the best in point of numbers, largest representation, and the superior class of people who composed it. Notwithstanding all that was said about it in the papers, it struck me as being a very harmonious gathering, when all the diverse interests present are remembered. It was called for the purpose of formulating a platform which should be the basis of independent political action, and we accomplished our purpose. The platform was about as we expected, although I would rather have had a special plank regarding the tariff. This subject, however, appears in the preamble and will be in the platform when we hold our nominating Convention. There was apparently no opposition to a third party, and we will certainly put a third party teket in the field. We did not attempt to estimate the numbers who will vote for such a ticket, but it is my belief that we have votes enough to elect a President if we could only marshal them. We cannot, I am aware, get them all out, but I should not be surpleed if the next election is thrown into the House." tic over its work and regards the Convention

next week on the question of the admission of New Mexico, Arizona, and Oklahoma as States. The report will undoubtedly be favorable to The report will undoubtedly be favorable to the admission of New Mexico and Arlzona. This has been definitely agreed upon by the majority of the committee. There is still some doubt about what the report on Oklahoma will be. There is every indication that the report of the committee will be adopted in the House, as far as the first two Tenturies named are concerned. In the case of Oklahoma there appears to be some doubt as to the expediency of the admission.

Senator Hill spent two hours to-day in convate room at the Capitol. All of the Demo-cratic leaders with whom Mr. Hill is ac-quainted, and many others, were sen-for, and the situation in general, and the condition of affairs in the House in particular, were talked over at length. Much enthusiasm was displayed by those who talked with the Speaker and the Senator, and Mr. Hill's prominence as a Presidential candi-date was the subject of conversation on the floor all the afternoon. vate room at the Capitol. All of the Demo

Chairman Springer of the Ways and Means Committee is confined to his bed by illness He has symptoms of the grip, and these are aggravated by overwork. Mr. Springer has been engaged for several weeks in the preparation of his report on the Free Wool bill, and the metfal labor incidental to this has proved a severe strain. He was at the Capitol yesterday, and did not apprehend any attack.

Senator Quay has improved rapidly at his country place in Florida, and word has been received that he will be back in Washington in atout ten days. His colleague, benator Cameron, is confined to his residence in this city by a severe attack of bronchitis.

The Bohring Sea agents are nearing the end of their work, and will probably adjourn next week. As they meet behind closed doors and observe the utmost secreer, it is impossible to assert positively what conclusions have been reached by them so far, but it is rumored that they have agreed unanimously that pelagic sealing should be stopped.

The House Committee on Public Buildings and Grounds at its special meeting to-day discussed the resolution introduced yesterday by cussed the resolution introduced yesterday by its Chairman, Mr. Bankhead of Alabama, con-cerning the policy to be pursued by the com-mittee in regard to bills providing for the con-struction of public buildings. No conclusion was reached, and the subject will be again taken up at the next meeting of the com-mittee. Concerning the declaration of the fivers and Harbors Committee that it would oppose all appropriations before it unless

LIVE WASHINGTON TOPICS.

the check on the appropriations for public buildings was removed. Mr. Bankhead abd uldings was removed. Mr. Bankhead abd that it was the other fellows fight. There had to be a cut somewhere, and he did not know of a better place than in the appropriations for public buildings. A prominent member of the Committee on Public Buildings and Grounds said that the resolution of Mr. Bankhead would undoubtedly lead to some plan for the committee to adopt, but what would be done with it was a matter of conjective. Judging from the discussion of the measure to-day he believed a majority of the committee were against the resolution.

THE CHINESE MUDDLE IN CONGRESS. Defeat of Senator Sherman's Bill-Other Measures to Secure Relief.

WASHINGTON, Feb. 27.-The adverse report upon Senator Sherman's anti-Chinese bill ostpones the settlement of a question that has been under consideration ever since the opening of this session of Congress, and that must be settled within a very short time. Both Houses, however, have yet plenty of other anti-Chinese bills within cach. As long ago as the 10th of last December Senators Stewart and Cullom introduced separate bills on the subject. Four days afterward we had the bill of Con-

introduced separate bills on the subject. Four days afterward we had the bill of Congressman Mitchell of Oregon, and within the past two months we have had the Geary bill, the Stump bill, the Dolph bill, and yet other bills. The main features of all the Exclusion bills meet with the support of the great majority of the members of both Houses of Congress; but the difficulty is to decide which one of them all is likely to be the most effective in its operation, while at the same time not subversive of any of our treaty stipulations with China. It is hoped that both Houses will be able to agree upon a proper bill before the close of the coming week. In any event, it is not necessary for the Knights of Labor or the Federation of Labor to get excited over the subject, and there is no Joubt whatever that the required legislation to prevent Chinese immigration will be adopted before the close of the session, and before the expiration of the existing Exclusion act.

There is a good prospect that the most troublesome thing about the Chinese question in this country will be settled through the action of the Canadian Parliament. The Chinamen who have entered the United States within the past few years have got here by way of Canada, crossing the border vancouver and Quebec, after sailing from Chinese ports to British Columbia. It would require thousands of Government agents, and involve heavy expense to watch the whole line of our Northern frontier, and this is a work that cannot be undertaken. The Parliament of the New Dominion will probably make it unnecessary. According to advices from Orthwa that body will at its present session adopt a measure providing for the imposition of a head tax of \$500 upon every Chinaman entering the New Dominion. This tax is ten times as great as that which is now imposed, and it will assuredly he sufficient to exclude from Canadian ports all or heavy all, the Chinese influx, which has aroused the opposition of the people of Canada; and the proposed legislation against it will be fully in c

A Rumor that a Large Salary Has Been

Offered Him by a Rullroad Combination. WASHINGTON, Feb. 27.-An interesting rumor is on foot to-night to the effect that Chief Justice Fuller is contemplating resigning his high office. Avery large salary has been offered him to become the attorney of a combination of railroads, with headquarters in Chicago.

him to become the attorney of a combination of railreads, with headquarters in Chicago, and, it is said, he is seriously considering the advisability of accepting.

The accuracy of the report cannot be learned to-night, but there are several gentlemen in Washington who are acquainted with the fact that the offer has been or is about to be made. It would be an entirely unusual and a very important occurrence for the Chief Justice of the highest court in the land to voluntarily retire in order to better his financial condition, or for any other reason, but there are circumstances in Justice Fuller's case that might render such action advisable. He is comparatively a poor man and has a very large family. He has eight daughters, and they have within the past few years been a source of heavy expense to him. When the late Chief Justice Walte and Associate Justice Miller died their estates amounted practically to nothing, and it is said by some of Chief Justice Fuller's friends that he is anxious to avoid leaving his family unprovided for in case of his death.

The Reported Lease of the Delawars an Hudson by the Pennsylvania Not Credited. Rumors of a lease of the Delaware and Hud-

son by the Pennsylvania, which were circu-No foundation for them could be obtained at any of the sources of information in this city. and by railroad men they were entirely discredited. Mr. Suydam Grant, a director of the Delaware and Hudson Canal Company, said: There are some negotiations pending between our company and the Pennsylvania in regard to tonnage from some of our mines but they are comparatively unimportant in character. I know of nothing that would lead me to believe that any steps have been taken

me to believe that any steps have been taken by the Pennsylvania looking to a control of the Delaware and Hudson. It would be quite as probable to assume that the Delaware and Hudson desired to lense the Pennsylvania. Mr. J. Rogers Maxwell said that he had heard the report, but did not believe it. It was also desired in Philadelphia despatches.

There are some people in the street who think that the big coal combination has left the Delaware and Hudson Company in about as advantageous a shane as any of the others. They reason that, although not actually in the combination, the Delaware and Hudson will derive all the benefits of combination prices and methods, while it may also act as it pleases in the question of output. The total output of anthracite coal last year was 40,448,000 tons, of which the Delaware and Hudson Company mined about 4,000,000 tons, or 103, per cent. It can mine and handle 18,000 tons a day, or about 0,000,000 tons a year. Under the new deal its friends assert that it can easily can twice its present dyidend if it mines 3,000,000 tons, and a proportionately greater amount it it mines 0,000,000 tons.

Southwestern Rallway Association. St. Louis, Feb. 27.-The members of the Southwestern Railway and Steamship Association met again yesterday to discuss the present condition of affairs. After full dispresent condition of affairs. After full dis-cussion it was decided to continue the asso-ciation as it now axists until March 13. Mr. Waldo agreed to this, and on that day the as-sociation will again convene in Chicago. On March 12 the Advisory Board of the Western Traffic Association will meet in Chicago. The Southwestern is an auxiliary association to this organization, and it is feared that the parent association may break up at that meeting.

The Southern Express Company. MEMPHIS, Tenn., Feb. 27.-The Southern Express Company to-day consummated a deal by which it acquires the exclusive express privileges of the Louisville, New Or leans and Texas Railroad and its branches.
It gains a hundred additional offices and eight hundred miles of railroad in the newly acquired territory, a new direct line to New Orleans, and shuts out the Pacific Express Company from all territory east of the Missispip river. The new arrangement goes into effect March 1.

A Missing Man Found Drowned WOONSOCKET, R. I., Feb. 27.-The mystery surrounding the disappearance of Thomas McLaughlin of Franklin, Mass., was solved McLaughlin of Franklin, Mass. was solved this morning by the discovery of his decom-posed body in the Blackstone Biver, at Black-stone, Mass. On his person there were found his watch and money, a quart bottle nearly full of whiskey, and a railway ticket from Blackstone to Franklin. There were no marks of foul play on the body. He was last seen alive on Dec. 20, in Blackstone, where he had attended the funeral of his sister-in-law.

PROVIDENCE, Feb. 27.-Senator Allison o Iowa, in an interview to-day, said that, in his opinion, Gov. Boies, if nominated for President by the Democrats, could not carry his own State. He felt assured, however, that the Governor would be a powerful factor in the National Convention at Chicago, and would undoubtedly have the full support of his State delegation. If the choice of the Convention is a Western man Senator Allison and he believed the men would be Boles and Palmer.

Serenaders Shoot a Bride.

NEWPORT. Ark.. Feb. 27.—On Thursday night Mr. Swearinger and Miss Bratley were married, and were visited by a serenade party. The crowd called upon the newly married couple to appear, and as they refused to do so some one shot through the window, fatally womaning the bride. ENOCKED OUT BY THE NORTHEASTER.

The Four-master Invertrements with Mainmant Gone and Salls in Mibbons. The fine new British steel ship Invertros-sachs, which sailed from Philadelphia to Calcutts on Feb. 15, has met disaster. She was passed about 160 miles north of the Bermu-

passed about 160 miles north of the Bermudas five days ago by the steamship Orsino, which arrived at Gloucoster. Mass., on Friday. Her mainmast was gone.

But the evidently had been boarded by a heavy sea, combed up by the recent northeasterly gaies. All her boats were gone, and her sails were torn and hanging to the mast. She was steering northwest-by-west.

The invertrossachs is a giant four-master measuring 2,507 tons. She was completed in Novamber last at Port Glasgow. Scoland, and finished her maiden yoyage, from Greenwich to Philadelphia, on Jan. 10. She is probably returning to Philadelphia for repairs.

The Norwarian steamship Johannes Brun, which arrived yesterday from Nassau after a tough tussle with a northeast gale, passed the American schoener Winnie Lawry, fifty-five days from Hayti, bound for this port. The schooner had been four days without provisions, and the Johannes Brun gave her a supply. The steamship was compelled to run before the storm three days to avoid disaster.

Cleveland Won by a Small Majority. CARLIELE, Pa., Feb. 27.-The Democratio Convention to-day elected the Hon. F. E. Beltzhoover, Joseph Best, Calvin Clendenin. Beltzhoover, Joseph Best, Calvin Clendenin, Levi Railing, George W. Paxton, and D. W. Kegerries delegates to the State Convention. The delegation is in the interest of Goy. Pattison. A resolution was presented by Mr. Mc-Cune endorsing Grover Cleveland for President. After considerable iil feeling it was adopted by a small majority. Ex-Senator Wagner spoke against Cleveland, claiming that he was not a Democrat. He said Goy. Hill of New York would make a more available candidate. He read extracts in favor of Hill from the New York papers, and asked that no action be taken endorsing Cleveland.

Locked in a Freight Car for Eight Days. VINCENNES, Ind., Feb. 27.-In a box car sissippi Rallway, five miles west of this city, a He was in a wretched condition, having lain there for eight days without feed, water, or fire. His feet wore so badly frozen that he could neither stand nor walk. He was Frank C. Bairis, a farm hand who had worked for a farmer near this city. In attempting to steal a ride he had been locked up and side-tracked in an out-of-way place.

Stenographer Nugent Beappointed John Nugent, who has been the official ste nographer of the Hudson county, N. J., courts for twenty-three years, was reappointed yes terday by Justice Werts, and was at once aworn in. He is one of the most expert stemographers in the State, and he had the support of the lawyers as well as the bench.

For \$5.00.

250 PHOTOGRAPHIC VIEWS handsomely beind in one volume, 9x11. \$5.00 in Cloth, \$7.50 in Half Russia, and \$10.00 in Full Russia De Luxe. \$10.00 in Full Russia De Luxe.

A CHARMING PRESENT FOR OLD AND YOUNG.

New York Beraid— The most remarkable and comprehensive volume of photographic views ever published.

No none, whether veteran lowist of large without longing can look at this is noisoned book without longing can look at this is noisoned book without longing can look at this is noisoned book without longing can look at this is noisoned for the control of Viewa from all parts of the globe, has published a Pictorial History of the World as it exists to day.

Each plate is supplemented with a condensed description of the object.

It is probably the largest and most unique colection of photographic Views ever published in one volume.

inn of the object. It is promoty the internal one most unique o dection of photographic Views ever published in one volume."

The Evening Post—"It is a handsome Volume illustrating a tour of the globe. The series of Views is well selected, an attractive book for the centre table, and contains many souvenirs for every tourist."

New Yor's Thee—"One no object was in this remarkable collection the architectural wonder, copresently to the series of the centre to the search, but access in word acquire and painting and celebrated natural wonders. The untravelled resider will find this work of unsurpassed value to him, while these who have journeyed into far distant lands may save themselves much cost and trouble in collecting photographs by purchasing this compact and comprehensive volume instead."

New York Sun—"Very high compliments are due the publishers of this unique and remarkable Volume of Views. It is an education as well as a memorial and its beauty is an independent recommendation for it. The prictures are benefit in the produced, clear, and soft in tone. They are all verticable pictures of the world as it exists to day.

New York Sun-willing, D., Rector of Trinity Colume, and it forms a most interesting study for the travelled and unitavelled site."

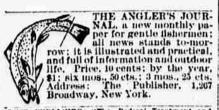

Bir. Hainstors, Rector of St. George's N. Y.—"My family has studied the collection of photographs illustrating a Trip around the timbe with great interest and profit. The collection is by larthe heat I havever seen."
